Calendar Adjustments and Course Demand

Dear Instructor,

As a reminder, the academic calendar for Yale College and the Graduate School is adjusted to accommodate the Labor Day holiday:

- On Friday, September 2, Monday classes meet instead of Friday classes.
- Monday, September 5, is Labor Day; classes do not meet.

Course demand statistics will show you how many students are considering your courses:

- Course demand statistics are linked from Yale Course Search (YCS).
- Enrollment figures are updated daily.
- These statistics display the number of students who added each course to their registration worksheet. We have asked students to update their worksheets regularly.

Sincerely,

University Registrar's Office
