Dissertation Submission Deadline and Guidelines

Dear Colleagues,

Take a moment to review the Dissertation Submission page on the University Registrar’s website, along with the Dissertation Submission Department Guidelines.

Important deadlines and information follows:

Notification of Readers forms (NOR): Students must notify their department of their intent to submit their dissertation, and an NOR must be prepared prior to the March 15 submission deadline. Dissertations cannot be processed unless the NOR has been prepared and approved by the DGS.

Dissertation Submission Deadline: Wednesday, March 15, 2023, is the deadline for graduate students to submit their dissertation for the May 2023 degree.

- Students must upload their dissertation using the Degree Petition page in the Dissertation Progress Reporting and Submission (DPRS) system
- All candidates must complete the necessary forms included on the Degree Petition page
- Students do NOT submit a paper dissertation to the Registrar
- Upon request, the student must provide a softbound copy of the dissertation to the reader

Please direct students to registrar.yale.edu – Students – Dissertation Submission for information regarding the submission process, formatting and submission policy. If you have questions or concerns about the dissertation submission process email Barbara Withington or call 203-432-0461.

If you experience any difficulties with the functionality of the system, email DPRS@yale.edu.

Thank you,
