Welcome to Yale

Dear First-Year Yale Students,

Welcome! As you prepare for your first year at Yale College, we write to provide you with three resources that will help you consider Yale’s many academic opportunities.

- The 2023–2024 Yale College Programs of Study (YCPS) is available online. This publication is home to program descriptions, degree and major requirements, certificate requirements, and academic regulations.

- Course information is found on Yale Course Search. Students use Yale Course Search to prepare for course registration by reviewing course descriptions, meeting times, and instructors. This site is updated throughout the summer as new courses are added. More information about registration will be sent later in the summer.

- Refer to the Yale College Summer Updates throughout the summer regarding academic advising opportunities and resources.

We hope you spend some time browsing through these resources to explore the richness and diversity of the Yale College curriculum.

Best wishes for the summer,

University Registrar’s Office
