Reminders

- Syllabi should be available to students by October 30.
- Instructor permission - the registration system offers a formal permission request and grant process. If

instructors have their courses set up requesting instructor permission, they should approve or deny students in a timely manner and before the close of registration.

- Discussion/Lab Section selection - students **will** select discussion/lab sections during the registration period; therefore, at least one discussion/lab section must be offered in CourseLeaf WEN by November 14. Additional discussion/lab sections may be offered at any point during the course enrollment cycle, based on teaching fellow allocations and student demand.
- Waitlists will be cleared sometime after the close of registration and the opening of add/drop period. Take steps (Jaspersoft reports) to copy your waitlist if necessary. Your departmental administrator should be able to help you run a report.

Additional instruction and information will be forthcoming. Refer to the [registration website](#) for further details, instructional documentation, FAQs, and dates and deadlines.

Sincerely,
